Turn Your Expertise Into a Business

Expert

Benayed Lina

Category

Entrepreneurship & Tech Leadership

Target Audience

Women Tech Entrepreneurs

August 2026

Entreprendre. Évoluer. S'élever.

1. Introduction

This masterclass helps women entrepreneurs transform their technical or professional expertise into a viable, market-ready business.

Goal

Turn your knowledge into a clear offer, find your market, and build the foundations of a sustainable business.

2. Core Pillars

01 — Value Proposition

Define your unique expertise, target customer, and market position.

02 — Execution Strategy

Transform your vision into concrete actions, processes, and goals.

03 — Growth & Branding

Build your expert identity, attract clients, and develop your authority.

3. Modules

Module 1 — The Founder Shift

Transform technical skills into market value, build confidence, and define high-impact business goals.

Module 2 — Monetizing Your Expertise

Create valuable offers, validate demand, define pricing, and attract your first B2B or B2C clients.

4. Prerequisites

- Experience in tech, design, marketing, or consulting.
- A preliminary business or service idea.
- Motivation to develop an entrepreneurial project.

Key Takeaway

Your expertise has value. The goal is to transform that expertise into a solution people need and are willing to pay for.
